SCHNEIDER SCHIRME

Brand-name umbrellas & accessories

2023 Catalogue

Make your

SUMMER

even better!

Your competent & reliable partner

Outstanding quality, fair prices

The brand "Schneider Schirme" embodies carefully selected materials and an attractive design. These characteristics ensure that our products will always operate flawlessly. Various institutions have consistently attested to this quality over the years.

More than 150 years of experience

Established in 1868, our company is owned and operated in the 5th generation and has always managed to adapt to the needs of the times. This know-how and experience have made us one of the market leaders in Europe.

Annex building adding 6,000 sqm of space to the company headquarters in Mengen - occupied since February of 2022

Eye-catching displays at the POS

With sales displays for sun umbrellas, shade sails, accessories and umbrella stands, we support retailers in their presentation of our products at the point of sale.

Complete line for every need

Whether you need standard, large, restaurant or professional umbrellas, in small or large quantities, single-colour or printed, Schneider Umbrellas is your ideal partner.

Rooted in the region, connected world-wide

Investments in our production and storage facilities in the south of Germany and the expansion of international relations are key contributors to our success and guarantee optimal merchandise supply. The commitment to our home location, quality and customer proximity is as strong as ever.

Effective UV protection

Since responsible protection against UV radiation has been a great concern of ours from the start, all of our umbrellas are always certified in accordance with international standards.

For more than 150 years

SCHNEIDER SCHIRME

2022 Completion of the annex building

2011 + 2014 Expansion by high-bay warehouses 1 & 2

2005 Expansion and simultaneous move of production and administration to Obereschring in Mengen

1995 Representing the family's fifth generation, Rolf Guffarth joins the company as its Managing Director

1973 Expansion in Mengen's industrial park

1969 Release of the first catalogue of garden umbrella products

1967 Garden umbrellas are produced for the first time

1868 Company founded as a factory for rain umbrellas

PREMIUM protective sleeves
High-quality protective umbrella sleeves for your PREMIUM umbrellas.
Made of durable, waterproof and light-proof special polyester fabric. The drawstring features a stopper for closing the protective sleeve at the bottom to prevent insects and mice from building nests (except 321-00).

The sizes for 300 cm Ø and larger also feature a zip and telescoping rod for convenient covering of the closed umbrella, without having to remove it from the umbrella stand.

Sizes 400 cm Ø and larger also come with an air vent for improved air circulation.

Packaged in a sturdy zip bag with a carrying strap, which can also be used for storage.

Packaging unit: 6 items

Assembly instructions

The sunny line of umbrellas is ideal for advertising campaigns, supplements or secondary placement. EU and Asian imports, stringently tested in accordance with Schneider quality standards, guarantee functional and durable umbrellas.

The "sunny" sales display
allows the orderly display of the sunny products on page 52 – 54 – just where you need it: with the product assortment, as a secondary display or at the point of sale.

The display is delivered empty and must be assembled!

SCHNEIDER Zubehör

The practical accessories ensure secure support of your Schneider umbrellas wherever they are used. Schneider umbrella accessories, like all other Schneider products, are carefully inspected for quality and workmanship.

The new standardised packaging enhances the appearance to boost sales at the point of sale.

NEW in Accessories:

Universal wall bracket

(page 64)

Universal mounts

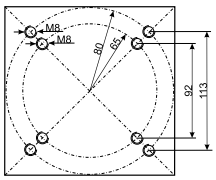
Installation on one of the mounts requires that the rotary plate (see detail images) be directly screwed onto the selected mount using the screws (M8x20) that have been included with the umbrella.
There is therefore no need for the cross base. You can store the base and use it as needed if you change locations temporarily.

The elimination of the cross base reduces the overall height of the umbrella by about 5 cm.

Our tip: Before you use one of the mounts listed, we recommend that you first use the umbrella with the included cross base for a few weeks in order to determine the ideal location for your umbrella.

Suitable for

- Monaco 3 x 3 m
- Bermuda
- Rhodos Junior series
- Rhodos Grande
  (Universal ground plate only)
- Rhodos Twist series
- Rhodos
- Rhodos Blacklight
- Rhodos Rondo
- Rhodos Smart
- Genua
- Mast for shade sail
  (Universal ground plate and Universal ground anchor only)



Universal wall console

For installation on the wall

For installation on walls, hot galvanised, mounting plate ca. 20 x 16 cm, great stability, space-saving installation option,
size: 21 x 16 x 16 cm

Suitable for the umbrellas listed above, depending on the height of the wall and the fastening point of the universal wall console.

Art. no. 897-60

4 000570 897600

ACCESSORIES

Universal ground plate

to be set in concrete,

total height ca. 55 cm,
anchoring tool included

For *anchoring*

Art. no. 897-55

4 000570 897556

ACCESSORIES

Hanging umbrella wind stabiliser

This wind stabiliser made of robust, black polyester straps reduces unsteadiness of the umbrella caused by wind and therefore also the strain on the umbrella frame. It can be mounted on all hanging umbrellas with a locking screw on the lower part of the pole and a maximum pole circumference of 260 mm, without the use of tools.

IMPORTANT:
The hanging umbrella wind stabiliser does **not** increase the stability of the hanging umbrella. The stability depends primarily on the weight and the size of the umbrella stand that is used! The wind stabiliser only reduces the movement of the canopy and the strain on the umbrella frame. The hanging umbrella should always be closed in windy conditions.

Suitable for the following hanging umbrellas:
- Monaco 3 x 3 m • Bermuda
- Rhodos Grande • Rhodos Twist series
- Rhodos • Rhodos Blacklight • Rhodos Rondo
- Rhodos Smart

Scope of delivery:
1x pole fastener
2x brace fasteners
2x tie-down straps

Art. no. 313-00

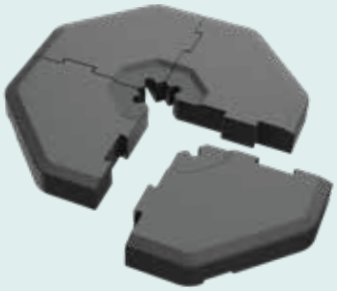
Packaging unit: 6 items

Slabs for hanging umbrellas

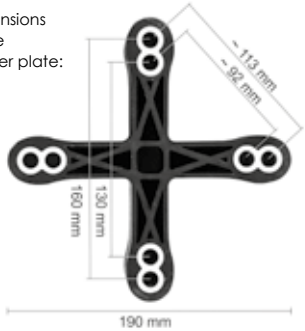
Slabs suitable for cross bases of hanging umbrellas. For filling with water from the side. Filled 100 kg and therefore suitable for hanging umbrellas. Walkable! The interlocking design creates a continuously connected unit.
Overall height of the umbrella is about 5cm higher.

Suitable for our umbrellas:
- Monaco 3 x 3 m • Bermuda • Rhodos Junior series
- Rhodos Twist series • Rhodos • Rhodos Blacklight
- Rhodos Rondo • Genua

1 set consists of 4 elements.
Total size ca. 111 x 111 x 12 cm
Empty weight: ca. 12 kg/set

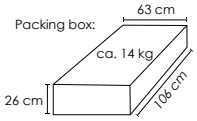


Dimensions of the spacer plate:



Art. no. 312-15

Packing box:



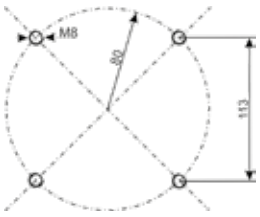
Stand for hanging umbrellas, mobile

Sturdy frame of powder-coated steel with foot pedal for raising, anthracite grey plastic cover colour matched to our hanging umbrellas, 4 PU-coated steering rollers, 5 plastic tanks for filling with sand and/or water, total weight ca. 110 kg (with sand) or ca. 90 kg (with water), overall height of umbrella is about 15 cm higher.

Suitable for our umbrellas:

- Monaco 3 x 3 m • Bermuda
- Rhodos Junior series • Rhodos
- Rhodos Twist series
- Rhodos Blacklight
- Rhodos Rondo • Rhodos Smart

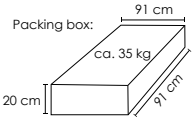
Hole pattern for mounting the umbrella holder:

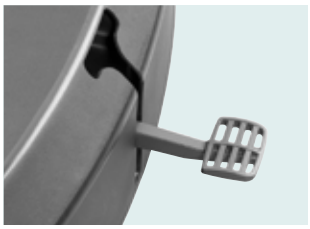


Umbrella not included

Art. no. 319-15

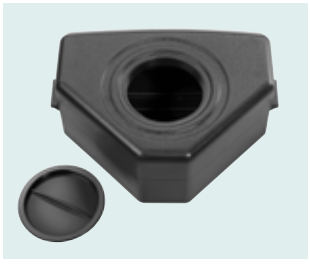
4 000570 319157





Ready to move when foot pedal is pressed

Plastic tanks and rollers



Plastic tank for filling

Steering bar for mobile stands for hanging umbrellas

Allows effortless movement of the mobile hanging umbrella stand by mounting between the rotating plate of the umbrella and the mounting plate of the umbrella stand.
Rod is collapsible.
Can also be retrofitted in existing hanging umbrella stands (Art. no. 319-15).
Can also be used with other mobile umbrella stands with a suitable hole pattern.

Umbrella holders Foxi and Maxi

SCHNEIDER Zubehör

ACCESSORIES

Made in Germany

Innovative umbrella mounts for stable and secure mounting of sun umbrellas on balcony rails. The two half shells of the umbrella holder are each securely held by four screws, fastening the umbrella pole securely to the balcony rail.

The Allen key needed for this is included.

Fibre-reinforced plastic provides maximum stability and an aesthetic design with no edges or corners.

Blister packaging made of recycled PET bottles.
