SCHIRME

Brand-name parasols & accessories

2026 Catalogue

Make your

SUMMER

even better

Your competent & reliable partner

Outstanding quality, fair prices

The brand "Schneider Schirme" embodies carefully selected materials and an attractive design.

These characteristics ensure that our products will always operate flawlessly. Various institutions have consistently attested to this quality over the years.

More than 150 years of experience

Established in 1868, our company is owned and operated in the 5th generation and has always managed to adapt to the needs of the times.

This know-how and experience have made us one of the market leaders in Europe.

Annex building adding 6,000 sqm of space to the company headquarters in Mengen - occupied since

Eye-catching displays at the POS

With sales displays for parasols, shade sails, accessories and parasol stands, we support retailers in their presentation of our products at the point of sale.

Complete line for every need

Whether you need standard, large, restaurant or professional parasols, in small or large quantities, single-colour or printed, Schneider Schirme is your ideal partner.

Rooted in the region, connected world-wide

Investments in our production and storage facilities in the south of Germany and the expansion of international relations are key contributors to our success and guarantee optimal merchandise supply. The commitment to our home location, quality and customer proximity is as strong as ever.

February of 2022

Effective UV protection

Since responsible protection against UV radiation has been a great concern of ours from the start, all of our parasols are always certified in accordance with international standards.

For more than 150 years

SCHNEIDER
SCHIRME

Premium protective covers

PREMIUM protective covers

High-quality protective parasol sleeves for your PREMIUM parasols.

Made of durable, waterproof and light-proof special polyester fabric. The drawstring features a stopper for closing the protective cover at the bottom to prevent insects and mice from building nests (except 4321-0007).

The sizes for 300 cm Ø and larger also feature a zip and telescoping rod for convenient covering of the closed parasol, without having to remove it from the parasol stand.

Sizes 400 cm Ø and larger also come with an air vent for improved air circulation.

Packaged in a sturdy zip bag with a carrying strap, which can also be used for storage.

Packaging unit: 6 items

145 x 20/25 cm	4321-0007	for parasols up to 200 cm Ø and 225 x 120 cm	4321-0007 
183 x 25/35 cm	4322-0007	for parasols up to 300 cm Ø, with zip and rod	4322-0007 
250 x 27/45 cm	4323-0007	for parasols up to 400 cm Ø and 300 x 300 cm, with zip, rod and air vent	4323-0007 
240 x 57 cm	4324-0007	for hanging parasols up to 400 cm Ø, 300 x 300 cm and 350 x 260 cm, with zip, rod and air vent	4324-0007 

CLASSICS

NEW in the Classics segment:

The sunny line of parasols is ideal for advertising campaigns, supplements or secondary placement. EU and Asian imports, stringently tested in accordance with Schneider quality standards, guarantee functional and durable parasols.

The “sunny” sales display

allows the orderly display of the sunny products on page 54-56 – just where you need it: with the product assortment, as a secondary display or at the point of sale.

The display is delivered empty and must be assembled!

Shade sail Lanzarote

A perfect addition

The practical accessories ensure secure support of your Schneider parasols wherever they are used. Schneider parasol accessories, like all other Schneider products, are carefully inspected for quality and workmanship.

The new standardised packaging enhances the appearance to boost sales at the point of sale.

Universal mounts

Installation on one of the mounts requires that the rotary plate (see detail images) be directly screwed onto the selected mount using the screws (M8x20) that have been included with the parasol.

There is therefore no need for the cross base. You can store the base and use it as needed if you change locations temporarily.

The elimination of the cross base reduces the overall height of the parasol by about 5 cm.

Our tip: Before you use one of the mounts listed, we recommend that you first use the parasol with the included cross base for a few weeks in order to determine the ideal location for your parasol.

Suitable for

- Monaco 3 x 3 m
- Rhodos Junior series
- Rhodos Grande
(universal ground plate
+ universal wall console only)
- Rhodos Twist series
- Rhodos
- Rhodos Blacklight
- Rhodos Rondo
- Rhodos Smart
(except universal wall console)
- Genua
- Pole for shade sail
(except universal ground stake)

Hole pattern:
Dimensions in mm

Universal wall console

For installation on walls, hot galvanised, mounting plate ca. 20 x 16 cm, great stability, space-saving installation option, size: 21 x 16 x 16 cm

Suitable for the parasols listed above, depending on the height of the wall and the fastening point of the universal wall console.

Art. no. 4003-0001

Universal ground plate

To be set in concrete,
hot galvanised,
mounting plate ca. 16 x 16 cm,
total height ca. 40 cm

To be
set in
concrete

Minimum dimensions
for the concrete foundation:

Art. no. 4000-0001

Universal ground anchor

For anchoring in the ground*
or setting in concrete,
hot galvanised,
mounting plate ca. 16 x 16 cm,
total height ca. 45 cm

For
anchoring
in the
ground

Minimum dimensions
for the concrete foundation:

* Only in undisturbed topsoil!
Not suitable for sandy or stony soils!

Art. no. 4001-0001

Universal ground stake

For anchoring, hot galvanised,
mounting plate ca. 16 x 16 cm,
total height ca. 55 cm,
anchoring tool included

For
anchoring

* Only in undisturbed topsoil!
Not suitable for sandy or stony soils!

Art. no. 4002-0001

Hanging parasol wind stabiliser

This wind stabiliser made of robust, black polyester straps reduces unsteadiness of the parasol caused by wind and therefore also the strain on the parasol frame. It can be mounted on all hanging parasols with a locking screw on the lower part of the pole and a maximum pole circumference of 260 mm, without the use of tools.

IMPORTANT:

The hanging parasol wind stabiliser does **not** increase the stability of the hanging parasol. The stability depends primarily on the weight and the size of the parasol stand that is used! The wind stabiliser only reduces the movement of the canopy and the strain on the parasol frame. The hanging parasol should always be closed in windy conditions.

Suitable for the

following hanging parasols:

- Monaco 3 x 3 m • Rhodos Grande
- Rhodos Twist series • Rhodos
- Rhodos Blacklight • Rhodos Rondo
- Rhodos Smart

Scope of delivery:

- 1x pole fastener
- 2x rib fasteners
- 2x tie-down straps

Art. no. 4313-0005

Packaging unit: 6 items

Slabs for hanging parasols

Slabs suitable for cross bases of hanging parasols.

For filling with water from the side. Filled 100 kg and therefore suitable for hanging parasols. Walkable! The interlocking design creates a continuously connected unit. Overall height of the parasol is about 5cm higher.

Suitable for our parasols:

- Monaco 3 x 3 m • Rhodos Junior series
- Rhodos Twist-Serie • Rhodos • Rhodos Blacklight
- Rhodos Rondo • Genua

1 set consists of 4 elements.

Total size ca. 111 x 111 x 12 cm

Empty weight: ca. 12 kg/set

Dimensions
of the
spacer plate:

Art. no. 4312-1503

Parasol stand for hanging parasols, mobile

Sturdy frame of powder-coated steel with foot pedal for raising, anthracite grey plastic cover colour matched to our hanging parasols, 4 PU-coated steering rollers, 4 plastic tanks for filling with sand and/or water, total weight ca. 110 kg (with sand) or ca. 90 kg (with water), overall height of parasol is about 15 cm higher.

Suitable for our parasols:

- Monaco 3 x 3 m
- Rhodos Junior series
- Rhodos
- Rhodos Twist series
- Rhodos Blacklight
- Rhodos Rondo
- Rhodos Smart

Hole pattern for mounting the parasol holder.

Dimensions in mm:

Ready to move when foot pedal is pressed

Plastic tanks and rollers

Plastic tank for filling

Parasol not included

Art. no. 4319-1503

Steering bar for mobile stands for hanging parasols

Allows effortless movement of the mobile hanging parasol stand by mounting between the rotating plate of the parasol and the mounting plate of the parasol stand. Rod is collapsible.

Can also be retrofitted in existing hanging parasol stands (Art. no. 4319-1503).

Can also be used with other mobile parasol stands with a suitable hole pattern.

Hole pattern for mounting.

Dimensions in mm:

Art. no. 4320-1503

Parasol and parasol stand not included

Art. no. 4038-2901

Parasol holders Foxi and Maxi

Practical parasol holders for stable and secure mounting of parasols on balcony rails. The two half shells of the parasol holder are each securely held by four screws, fastening the parasol pole securely to the balcony rail.

The Allen key needed for this is included.

Fibre-reinforced plastic provides maximum stability and an aesthetic design with no edges or corners.

Blister packaging made of recycled PET bottles.
